# PointStar Expands its Cloud Computing Investment in Indonesia with its New Jakarta Office to Serve More Customers

2017-04-12 14:00

JAKARTA, April 12, 2017 /PRNewswire/ -- PointStar, a cloud technology consulting firm that empowers businesses across Asia Pacific to innovate and move beyond productivity has moved to a new office to accommodate its rapid business growth in Indonesia.

PointStar's Jakarta team in their new cloud-managed Indonesia office

The new office is designed to promote employees' productivity in a collaborative environment. It comes with fully-equipped conference rooms, a silent room, and a 'Phone Booth' area for employees who wish for a quiet working environment. With these facilities, the team can focus on enhancing their core competencies and assists companies to choose, adopt, implement, customise and manage their cloud solutions.

As one of the leading Google Partners in the APAC region, the conference room highlights the use of Google Hangouts in connecting PointStar's team of more than 60 employees working at different geographical locations.

The new office allows the team to collaborate and achieve better and faster results for growing client's list of all sizes, which include Gojek, Zalora, Matahari Mall, Indo Tambangraya Megah, and Parkland.

On May 7th 2015, PointStar announced the opening of a Cloud Center of Excellence in Indonesia. In less than 18 months, PointStar has outgrown its premises and experienced a multifold expansion in its employees as well as customers' portfolio.

As one of the pioneers in cloud solutions, PointStar adopted Google's advanced online enterprise-ready tool, G Suite, in achieving optimal communication. PointStar also utilises Netsuite's cloud accounting and CRM system, Cisco Meraki's cloud controlled WiFi, routing, and security system in ensuring a secure scalable enterprise network, as well as the Grandstream IP phone for a much stable telecommunication network.

"Our Jakarta new office will reinforce the strength and focus to bring our clients world-class services. The expansion reflects our commitment and the continued success on our clients' businesses. We will continue to provide quality, innovative and affordable cloud solutions for companies to embrace digital transformation, and redefine the smarter way of working in the new digital era," said Justin Lee, CEO of PointStar.

To celebrate the opening of the new Jakarta office, PointStar has launched a 1-FOR-1 training package called TransformMyBiz. Its objective is to help the small and medium businesses to train their employees on getting the most out of G Suite (formerly Google Apps) at work. The training package, worth \$900 per session will be applicable to companies in Indonesia, Singapore and Malaysia, valid for the first 100 companies that sign up and on a first-come-first-serve basis.

"We live in a world of change, driven by technology and it is changing the way how companies and people used to work. As companies take on digital transformation, it simplifies the way they work and soon see themselves operating at maximum velocity," added Justin Lee.
